How do we create experiences and cultures in our schools that build on our students' increasing agency over learning through powerful questions and personal inquiry?

In this Modern Learners Lab, you'll build your capacity to lead change in your school community, learning to help students take more ownership over their learning in important ways that will allow them to thrive in today's complex learning environments.

This Lab will reset your focus and your priorities, and introduce you to a framework for relevant, sustainable change for your teachers and students.

What you'll learn at Modern Learners Lab NYC:

Explore the potential of learner agency and the possibilities that come through inquiry.

Learn how the culture you have influence the choices you make

See the difference between teaching cultures and learning cultures

Understand how inquiry learning and student agency impacts the choices students and teachers have in classrooms

Learn how to bridge the gap between the learning environment you have and the one you want for your students

You'll be challenged. You'll be inspired. You'll walk away with a clear understanding of what's possible for your young modern learners and how you can make that happen at your school.

Space is limited. Register today at:
